EDMONTON, ALBERTA, WEDNESDAY, APRIL 7, 1954

District Honors Family Moving To Sangudo

ATMORE — On Saturday the 20th a very nice farewell party was held at the community hall for Mr. and Mrs. Carl Bauer and family. After 11 years of store-keeping combined with the post-office, telephone, bus depot and gasoline dealer, Mr. Bauer has purchased another store in Sangudo and he will be leaving here soon.

A large crowd was present, including friends from Grassland, Hylo and Lac la Biche. Mrs. Victor Genoud proved herself a wonderful entertainer with the help of Mr. George Gravel who lacks not enthusiasm in such circumstances. After lunch Mr. Gravel presented to Mr. Bauer a brief case, to Mrs. Bauer an electric iron and to the children the balance of the contributions.

Father St. Arnaud was then invited to speak on behalf of the community and parish. He praised Mr. Bauer and family for their nice citizenship, their generosity, their respect of other people's creed and profound attachment to their faith and church. He certainly will be the one to miss them most.

Mr. and Mrs. Bauer were so deeply moved by the people's remarks of gratitude that words could hardly be found to express their sentiments. From the Bauer family very special thanks go to the main organizers of this farewell, Mr. and Mrs. Victor Genoud and Mr. Gravel.

To the new owners of the store, Mr. and Mrs. Roland Vincent, formerly of Normandeau, a most sincere welcome to this district and to both families many wishes of success.

Lac la Biche

Carpenters D. Joncas and son, were busy making cupboards and tables in the laboratory of Dr. Swift School. The remodelling is in preparation for the plumbing facilities to be installed in the laboratory.

Parents are reminded that they may have their children inoculated on Thursday, April 8. The facilities are available to all children both school and pre-school age. Forms may be obtained from any member of the teaching staff.

Mr. Frank Donofrio and family, former residents of Lac la Biche, have returned to this town. Mrs. Donofrio has two children of school age.

Northland Utilities have reduced their rates from 7 cents to 6 cents per K.W.H. on consumption over 40 K.W.

The male curlers got revenge over the members of the fairer sex by defeating them 13 to 5. The ladies, in an earlier game, had defeated the men.

Residents Visit Sight Of Train Derailment

LAC LA BICHE — Many people from Lac la Biche were headed for the sight of the train derailment near Hylo.

The derailment was apparently caused by a faulty rail which had had an unnoticeable crack in it for some time. A tanker and a number of box cars were thrown off the track and badly damaged. No one was injured in the mishap. Damages to the track were quickly repaired.

THE MONKEY perched on the sailor's arm was the mascot of the veteran destroyer "Restigouche" and the banana he is munching so happily was one of a supply brought on board when the destroyer, which is no longer in service, called at the Azores.

Moviegoers Will Soon See On Wide Screen At Aurora Theatre, Lac la Biche

By T. W. PUE

A succession of post-war innovations has hit the motion picture industry with the advent in turn of 3-D films, Cinemascope and Wide Screen pictures. Michael Maccagno, manager of the Aurora Theatre in Lac la Biche already has installed the wide screen and hopes to have 3-D pictures. Possibly by the end of next month.

The new screen is the very latest obtainable. It covers an area of 252 square feet, being 21 feet long and 12 feet wide. It has an inside curve, which tends to give the audience the illusion of depth, and sort of puts the spectator right into the scene. If an express train is coming down the track you have the sensation of sitting right in the station.

Mr. Maccagno says that the new wide screen gives appreciation to the travelogue type of film. These pictures show the great outdoors of many lands and lend themselves to full use of the wide screen. For this reason the Aurora Theatre intends to show more such pictures in future.

This is the same screen as is

Resident For 40 Years E. Kumpula Passes

RICH LAKE — Another old-timer, one of the district's earliest residents, Mr. Emanuel Kumpula, passed away after a long illness at his home on March 25.

Mr. Kumpula resided in the Rich Lake district for 40 years. Surviving are his wife and four sons and 18 grandchildren at Rich Lake, one brother in the States, and many friends and relatives.

Lakeview Mortuary was in charge of funeral arrangements.

The funeral service was conducted Saturday, March 27, at the family home with Rev. Greenough officiating. Interment was in Fork Lake Cemetery. Pallbearers were: G. Kumpula, C. W. Kumpula, I. Kumpula, A. Haimila, E. Mackie and O. Jutila.

Deepest sympathy goes to the family.

used for Cinemascope pictures and later, on the special projecting equipment required for Cinemascope will be installed in the Aurora. Next month, Mr. Maccagno plans on showing his first 3-D (or Three Dimension) picture.

The Aurora Theatre shows three different pictures a week, with two showings (at 7 and 9 o'clock) each evening, and a matinee on Saturday afternoon during the past week. However, a minimum of one show a day and three on Saturday constitutes the regular schedule. At 8:30 p.m. weekdays and 2:30, 7:00 and 9:00 p.m. Saturdays.

Three Vehicles In Mishap Due To Ice Conditions

HYLO — A three vehicle collision occurred in Hylo on March 24, when Rev. Johnson of Lac la Biche bumped into Mr. Chomic's truck which in turn was pushed into Mr. Carl Willingsopher's tractor. Rev. Johnson was trying to make a sharp right turn but was unable to do so because of ice which was stuck to the fender. Not being able to make the turn, Rev. Johnson tried to stop but before he could he had collided with Mr. Chomic's parked truck and he pushed it into Mr. Willingsopher's tractor which was also parked. The truck was slightly damaged but no one was hurt. The matter was not taken to a court of law but was settled between those who were mainly concerned.

Egg Lake

Mr. and Mrs. Denis Amiot and baby Phyllis made a short trip to Edmonton recently to visit relatives. They went with Mr. and Mrs. Jos. Dakin of Gourin.

Mr. Albert Girard is back from Dawson where he had been working for the past few months.

Mrs. Gerald Amiot is in hospital in Lac la Biche where she underwent an operation on March 25. She is feeling well and will be back soon.

Harry Lobay Urges Social Credit Economy As Security For Farmers

EDMONTON — Harry Lobay, Lac la Biche businessman and Member of the Legislative Assembly in Edmonton for the past six years spoke recently on the floor of the legislature in reply to the Speech from the Throne. Among other things, Mr. Lobay urged construction of main highways in his constituency to connect the larger towns and suggested that a turn to a Social Credit money system in Canada was the only solution to the present farm situation of falling farm prices and increasing surpluses of farm products.

Imperial Bank To Move To Larger Premises

LAC LA BICHE — Abdel Zrien, general merchant, has announced that he has sold his store with living quarters upstairs to the Imperial Bank. The new premises are to be occupied by the bank later in the year.

The office downstairs will be modern in every way, affording much more room for customers and staff. The bank also expects to have a vault and safety boxes, a service not here now due to crowded quarters.

At present the apartment in the building is being completely renovated and redecorated for occupancy by the manager, Mr. F. A. Moffett and his family. They will move in as soon as this work has been completed. The apartment is fully modern in every way.

In the few years that Imperial Bank has been in Lac la Biche, business and staff of the branch have both grown. Consequently the new larger premises are necessary. The building in which the bank is now located is owned by the Lac la Biche School Division and it is not known what future use will be made of it.

Fashion Show By W.I. Proved Very Enjoyable

LAC LA BICHE — The Memorial Hall was the scene of a delightful evening of entertainment on March 26. The affair, featuring a fashion show, was sponsored by the Lac la Biche W.I.

The show was opened by a minute cowboy and an even more minute engineer modelling their costumes with the poise of veterans. They were followed by a long line of models presenting fashions for every age group and ranging from the casual carefree clothes of everyday living to that foamy formal for that special occasion. The many different costumes had to be seen to be appreciated.

The W.I. extend a heartfelt thank you to the merchants for their generous co-operation in supplying the costumes. Mrs. A. Brinsmead provided piano accompaniment and Mrs. Mastaler gave a comprehensive commentary on the costumes as they were shown.

The more serious business of considering what the well-dressed woman should wear was livened with mimicry and song between numbers. Mrs. A. Brinsmead and Rev. D. Greenough captivated the audience with their lovely duets. Mr. E. Coutney, Mrs. J. Olstad and Mr. C. Burke presented an amusing skit and Mrs. T. B. Lett, Mrs. J. Bouvier, Mrs. Breault and Mrs. J. Wolstenholme left the audience "in stitches" with their antics in "How Are You Going To Keep Them Down On The Farm."

At this point the Tea Committee captured the spotlight with a delicious and sumptuous lunch.

Mr. Lobay's speech is as follows:

Mr. Speaker, in taking part in this debate, I wish to express my deep sympathy to the families of Dr. Robinson and Mr. Ure, who have worked so faithfully for public cause, and have passed away.

I, too, wish to congratulate the new members to the House, and the new appointed Cabinet Ministers who are to continue the good work of the ones we have lost. I wish to congratulate the Mover and Second-ender to the Throne Speech.

Mr. Speaker — As Agriculture, the basic industry of Alberta, is in the hands of some \$5,000 farmers, they are not getting any encouragement in their industry under the present economy. Nor will they be able to add to their numbers from the Federal Government Immigration Policy.

It was related that I had an Immigration Official interview me to find out what opportunities there are north to establish immigrants on farms. There was plenty to tell him, but what inducement is there to farming to get security with freedom if he hears what I heard, and it was on C.J.C.A. impersonating a farmer from Wetaskiwin crying, who sold 14 bushels of grain over his delivery quota, and had to pay a fine—or possibly get that security in jail—than with no freedom.

Also, I wish to reiterate, maybe, in other words, what the Mover to the Speech from the Throne had said, and that is, the appalling way in the handling of Agric. Marketing by the Federal Government. These faithful producers are getting a rotten deal and the Con-

Bakery To Install
Doughnut Machine
Soon

LAC LA BICHE—Louis Richard, who for the past year has operated the local bakery in town, will soon be able to sell doughnuts made in the bakery. A special, modern machine will be installed for the purpose.

Known as "Richard's Bakery," the shop now bakes daily a standard bread loaf. As soon as possible, Mr. Richard intends to bake and sell buns in addition to the doughnuts. This will be possible, he says, when additional experienced help is secured.

Plamondon

Mr. Ernest Harps of Pelican Rapids was in Plamondon this week. He comes all the way from Pelican to sell his furs to Philip Plamondon.

Edward Plamondon and Claude Gauthier went to Bon Accord and each purchased a purebred registered Jersey cow.

Joly Plamondon has built himself a snow-plane and he's using it as a means of transportation to his trap line.

Paul-Emile Germain of Wandering River made a business trip to Plamondon.

Mr. and Mrs. Adelard Bosse and Jeannine, Denise and Lorraine were visiting Mrs. Ovide Bosse.

Mr. and Mrs. Wilbert Gauthier's four and a half year son was rushed to hospital on Tuesday and was immediately operated on.

George Gauthier was hurt when pinned underneath his car last week. The car was jacked up and he was working under it when the jack slipped and pinned his arm to his chest. Luckily he had a companion along to help him. When he was pulled from under the car, he already had difficulty in breathing. His arm is badly bruised and very swollen.

Fire Brigade Active
During March

LAC LA BICHE—Summary of Fire Brigade happenings March 8 to March 31 are as follows: Monday, March 8, 1954, at approximately 2:00 p.m. a fire broke out between the Lac la Biche Hotel and the building occupied by the Alberta Liquor Control Board. The fire was active in some sawdust between the two buildings and apparently spread to the paper between the stucco and the frame portion of the Lac la Biche Hotel at ground level.

S. Kelly was notified of the fire and immediately attempted to extinguish it with a fire extinguisher. Finding this did not entirely quench the fire, he immediately phoned for assistance. From the time the fire alarm sounded to the time the fire was entirely extinguished seven and a half minutes was the recorded time, which was fast work on the brigade's part. Sixteen of the eighteen members were present at the fire showing the all out interest of the Lac la Biche Volunteer Fire Brigade.

Regular work-outs and general practices were carried on March 10, 17 and 24. One practise of particular interest was the practise of the firemen's lift and explanations involved. Fireman Williams gave demonstrations and helpful hints with the greater number of the fire brigade members practising them during the course of the evening. Fireman Marchildon pretended to be the lifeless body. These demonstrations and explanations were of much benefit to the firemen, for if the need should ever arise thus necessitating the use of some quick and practical form of moving a person from danger of a burning building, the correct and more adequate form would, naturally prove the most beneficial. March 31, the last turnout of the month, was in the form of a show pertaining to training of firemen and offering many helpful ideas for future practices and operations.

Grassland

A very interesting meeting of the Athabasca Agricultural Society was held in the Grassland Community Hall on Wednesday. Mr. Godell, district agriculturist and Dr. Ballantyne, provincial veterinarian, were speakers. Dr. Ballantyne showed lantern slides illustrating diseases of animals. Gordon Putnam is local representative of the Society for Grassland. Attendance was about 300.

Mr. and Mrs. Semenluk and fam-

ily motored to Big Valley on Saturday, returning Monday. The occasion was a valley re-union. Many members of the family had not met for twelve years.

At the recent Livestock Show in Edmonton, Frank Kiszka bought two purebred Hereford heifers, while Mike Medwid returned home with a purebred Shorthorn bull.

Mrs. Sutton is still in the University Hospital in Edmonton. Her condition shows a slight improvement.

St. Catherine's
Hospital Report

Patients admitted to St. Catherine's Hospital from March 24 to 31 were: Mrs. Phillip Duperron, Egg Lake; Robert Peressini, Lac la Biche; Alfred Johnson, Grassland; Todyr Tanasichuk, Lac la Biche; Mrs. Alex Dragon, Imperial Mills; Mrs. Robert Diesel, Lac la Biche; Mrs. Gerald Amiot, Egg Lake; Stanley Jenkins, Boyle; Mrs. Marie Veillette, Lac la Biche; Raymond Bosse, Plamondon; Mrs. J. Malouvet, Lac la Biche; Lilly Standbridge, Bondiss; Celine Duchrocher, Normandeau; Keith Kennedy, Hylo; Bernard Bourassa, Plamondon; Georgette Bourassa, Plamondon; Fred Woychuk, Noral; Jennie Bone, Mile 235; Carl Keehn, Hylo; Elmer Hogan, Imperial Mills; Mrs. Nick Sadowski, Frains; Rita Plamondon, Plamondon; Geraldine Plamondon, Plamondon; Pauline Dube, Plamondon; Mrs. Flora Lameman, Beaver Lake; Isidore Lameman, Beaver Lake; Alex Gauthier, Plamondon; Raymond Boucher, Mile 184.

Births recorded were: To Mr. and Mrs. Bruno Bourassa, Lac la Biche, a son, March 24; to Mr. and Mrs. Louis Rudiger, a son, March 27; to Mr. and Mrs. Christopher Castor, Chard, a son, March 28; to Mr. and Mrs. Johnnie Plamondon, Breynat, a daughter,

Don't Be A Slave To Your Chickens

LET THE BIRDS DO THE WORK

North West FREE CHOICE Growing Supplement and Whole Wheat and Whole Oats Is All You Need

NO GRINDING, NO MIXING, NO HAULING

WHY?

Birds have been supplied by nature with a gizzard to do their own grinding. When you feed North West free choice Growing Supplement the birds will eat only enough to balance their own feed.

HOW TO FEED:

After the birds are eight weeks old

and off chick starter, start North West free choice Growing Supplement. Crumbles and whole grain, equal parts wheat and heavy whole oats, some barley may be fed if the birds like it. Always have one hopper with the free choice crumbles and four times as much feeding space for the whole

grain. Even if you have no hoppers you can feed the Free Choice Growing Supplement Crumbles in a trough and scatter the whole grain on clean ground. Do not let the supply of Free Choice Growing Supplement run out.

RESULTS:

Very much less work. More even, healthier chickens. Each bird bal-

ances its own feed as nature has shown them how to do. Laying flocks on this method now are laying 75% to 85% and the eggs are hatching 77% to 88% on recent reports. Turkeys fed this way are hatching well over 80% of all eggs set. Watch this space next week for more free choice news.

New frozen products are seen spurring fish consumption.

THE LIGHTER SIDE

What Did the Cop Do Then?

One morning when an undertaker came to work he found a dead donkey lying in front of his place of business. Not knowing what to do with same, he went and asked the cop on the beat.

"Bury it, you dope," says the officer, "you're an undertaker, ain't you?"

"Sure," said the mortician, "but I thought I oughta inform the relatives first."

The Hard Way

Mary, aged five, was facing a minor surgical operation, and mother told her: "Be a brave little girl, and mama will get you a nice kitten."

Mother was sitting close by when Mary came out of the ether. She leaned forward to catch the youngster's first words.

The child opened her eyes, grimaced weakly, and muttered, "What a bum way to get a cat!"

Work Of The Boundaries Commission

The Co-Terminus Boundaries Commission came in for some criticism on the floor of the Legislature late last month for refusal to let a newspaper reporter in at the hearing at Rocky Mountain House. We do not support that criticism because we feel the Commission has a right to discuss their plans with local councils and school boards without releasing information until definite conclusions have been arrived at in each specific case.

Main purpose of the Commission is to end the present situation where municipal and school boundaries criss-cross each other so that one School Division may have to do business with as many as six different municipal districts. Under the new set-up each area will have one municipal district and one school division completely and wholly within the same common boundaries.

Generally speaking, in setting up the new municipal districts, co-terminous with their School Divisions, the Commission is observing all natural boundaries such as large lakes and rivers. In addition, boundary lines will run about half way between two parallel rail lines. We understand, too, that some Local Improvement Districts will be added to Municipal Districts where practicable and small districts will be combined with nearby areas.

All-in-all we think the Commission is doing a good job, and should be allowed to work out its decisions free of undue publicity or criticism from the press. The Government has wisely set it up as a non-political Board to make wise, impartial decisions. Its work should be completed by the end of this year and the new districts and divisions will be ready for business on January 1, 1955.

Opinions On Wheat Prices

Some interests argue that the price of Canadian wheat should be allowed to drift downward in an effort to get rid of more of the surplus. W. C. McNamara, assistant chief commissioner of the Canadian Wheat Board, does not agree. He says that while price levels are of great importance they are not the complete answer to the merchandising problem. The world will buy and consume only so much wheat. Lower prices do not necessarily mean higher consumption.

If Canadian wheat producers had obtained excessive prices during the period of wheat scarcity throughout the world they could not now reasonably expect any measure of price support. But the price of Canadian wheat has been very reasonable since the end of World War II.

The Financial Post of Toronto argues that wheat should be moved regardless of price. It says unsold wheat means trouble to the railways and elevator companies whose business it is to move it and to score of thousands of retailers, wholesalers and manufacturers who depend on western farm buying power.

Selling wheat at bargain prices, however would be ruinous to the western grain producer and his interests should have first concern.

Note and Comment

Neglecting the eyes may prove to be a dangerous and expensive form of negligence. Since there is no substitute for sight, it is wise to have periodic eye examinations to prevent any eye disease from becoming established or to obtain glasses or some form of treatment to help impaired sight.

* * *

In India recent widespread rains and hail fell causing more harm than good but provided there are no further setbacks record crops of wheat, grain and linseed are expected. According to recent official reports the acreage seeded to linseed is estimated at 2,490,000 acres for the 1953-54 crop year against 2,576,000 acres last year.

The Bible Today

But he began to curse and to swear saying, I know not this man of whom ye speak.—Mark 14:71.

A Community Obligation

Whenever Canadians band together and decide to accomplish some project for the good of their community, they work until that job is successfully completed. As a result of this persistence and cooperation our towns boast of such developments as swimming pools, playgrounds, parks, hospital, of civic organizations and culture groups. We have citizens who fight mosquitoes, others who battle crime, and many who join in the war against the ravages of disease, slums and disasters.

Often many of these groups seem overlapping and disorganized. Yet underlying the entire structure are the needs of the community itself. And when these needs seem to grow out of proportion our organizations must grow larger and stronger. It is then that our people get to work and community dreams come true.

At this time of the year, as a result of the annual Easter Seal campaign, we become especially conscious of the needs, and of an organization, that has grown larger and stronger because the demands upon it grow greater. This organization, the Co-ordinating Council for Crippled Children (Alberta), spearheads the annual Easter Seal campaign throughout the province.

Astonishing strides have been made by this organization in the care and treatment of those who are crippled. Medical diagnosis, physical, occupational and speech therapies and dozens of other rehabilitative techniques which have been developed and carried out through services provided by Easter Seal societies, have put many crippled persons back on their feet.

Working with the Easter Seal society to bring about these gains are many other groups welded together in its support. Junior leagues and service clubs, college sororities, labor organizations, volunteers and individual Easter Seal contributors join hands in making the Co-ordinating Council for Crippled Children (Alberta) the successful organization that it is.

We know that the people in our community cannot remain happy if they know that hundreds of crippled children remain untreated. As more and more people back the Easter Seal campaign, more and more crippled persons will have the chance to live the lives they deserve. We know that our community will rally to the Easter Seal cause and help build it to irresistible strength.

In Edmonton and district the Easter Seals are distributed on behalf of the society by the Kiwanis Club of South Edmonton and in Northern Alberta by the Associated Canadian Travellers (Edmonton Club).

Lessons In Tithing

This is the story of a little boy who was so poor that when he started out to earn his own living all he had in the world, besides the clothes he wore, was tied up in a small bundle. As he trudged along he met a captain of a boat who lived near his house.

"Where are you going?" asked the friendly captain.

"I don't know," he answered, "but I must find work to do and earn my own living. As you know, my father has a big family to take care of."

"That is right, lad. But what do you know how to do?"

"The only thing I know how to do," he replied, "is to make soap and candles."

"Well," suggested the captain, "let us kneel down here in the towpath and talk it over with God."

Very earnestly the old captain prayed for the young boy, and as they rose from their knees, he gave this advice: "Make the very best soap you know how, lad; give your heart to Christ, and give him part of every dollar you earn."

The boy never forgot the captain's words. After some difficulty he found work, and out of the first dollar he earned he gave ten cents to God; and after that ten cents of every dollar was God's part. As the years went on he became prosperous. He then gave the Lord two-tenths, then, as he prospered more, three-tenths, then four-tenths. Finally, when his children were grown up and educated, he had saved enough money to live on, and gave all the profits from his great soap business to God. That noble tither was William Colgate.

Voice Of The People

Readers are invited to make free expression of opinion on any subject. Letters should be short and concise. The Editor reserves the right to condense or reject any letter.

AGAINST IMMIGRATION

Regarding your column in the Editor's page, February 18, you speak of the need of more immigrants. Well let us take a look back at the hungry 'thirties. The majority of Canadian people did manage to feed themselves. But the immigrants of the roaring 'twenties were walking the streets in dozens in the city of Edmonton. Where I happened to live at that time not a day passed but some poor hungry bum was at the door, often three or four, all speaking their broken English. The city of Edmonton warned the CPR that if they brought in more foreigners the CPR could feed them. And in Saskatoon four hundred men walked the streets all night in 40 below weather—no place to lay down and dare not stand still lest they freeze. My brother spoke to a policeman to try and billet a man at each house. There was plenty of room in Saskatoon at that time. But the policeman said, "Aw, they are all a bunch of foreigners, nobody would want to take them in." So no matter what, they are human, and it is cruelty to bring them here to suffer.

And more cruel to dump them in the mining towns to crowd Canadians out to three days a week work. No wonder labor complains, take note also of the textile factory in Quebec where the girls asked \$2.50 a day; did they get it? No. The textile company brought in a ship load of Polish and Ukrainian girls who worked for \$1.50 and the Canadian girls could hunt work elsewhere. So I say, with most all real Canadians, clap the lid on immigration and clap it on tight.

Tomahawk, Alta.

A FARMER SPEAKS UP

I'd like to talk to city residents who think farmers are such big money-makers. They blame us for high prices but I wish they'd consider the high prices we pay for what we have to buy and the low prices we get for our produce.

The farmer who produces the food doesn't make big profits. He gets only a small percentage of the profits, and I mean small. It's the big packing plants, always expanding, who are making profits on the farmer's work.

When Big Business decides to cut prices paid to farmers they do it quick and sudden. But it takes them a long time to pass the benefit of lower prices on to the consumer.

The only way an average farmer can save a little money is by doing without certain luxuries that city folks would never be without.

So don't be too hard on the farmer. He still sweats for his living.

MICHAEL BORYS,
Box 54, Evansburg.

STILL WANT M.D. PAPER

There has been a rumor here that the Municipal paper plan, whereby each resident ratepayer gets the Sun every week, is to be discontinued. Ever since the plan started I've never heard a single bad word about your paper. I'm sure that the great majority of people in the Municipal District are very desirous that the Council continue with the paper as it is.

H. R. GILBERT,
Tomahawk, Alberta.
GOING TO THE DOGS

Quite a lot has been written in Voice about the good life of dogs. City friends tell me that city dogs are better taken care of than their country cousins. That isn't so. My boxer gets a well-balanced meal twice a day. He has a large yard to run and play in. He gets a weekly shampoo and whenever he doesn't look well we take him to the vet. That's good living for a dog or a human.

COUNTRY OWNER.

DEFENDS PENSIONERS

It was with a great deal of heartache that I read the letter from your correspondent from Lake Isle, Mr. Gerald Ambrose, Heartache at the insults he has levelled at the old aged pensioners and disgust too. Leaving aside the full text of his letter which as a whole is very debatable. The greatest condemnation should descend on him for his dastardly remark and classification of these people. The antiquated old age pensioners just as though it was a disgrace to be of that class and I, while not having the honor of belonging just yet to that select band, am vigorous by voicing my protest. Does he forget that it was those same antiquated people who brought this wonderful country to its present state of development and incidentally are still carrying on the improving of same and must I also remind him that some of the finest minds in this or any country belong to his so-called antiquated class. Look around you, sonny and do you find the young and flaming youth as the heads and directors of government, business and finance. No sir, it's that despised "Antiquated class" who hold these high positions. I sincerely hope your correspondent continues to confine his activities to its present scope municipally and not branch out into higher fields or he might find out that the men holding some of the highest posts in the federal realm of government have the honor to belong to the "Antiquated Old-age Pensioner class," quote, "whom time has stripped of what little sense of reasoning and practicability they may have once had," unquote. I refer to the Prime Minister of Canada and most of the members of his cabinet who are all in or near this benighted class.

E. Richard Noble,
Fallis, Alta.

Threats Are Never Wise

The announcement that Russia is stationing atomic cannon in Czechoslovakia is not pleasant news, although due to the U.S. placing them in Germany was not unexpected. Last August Russia tested a hydrogen bomb which the U.S. Atomic Commission has admitted was a powerful one. Bulganin stated some months ago that their industrial progress has been helped by the use of atomic energy. It is clear that Russia by using German scientists found in Germany in 1945 were not far behind the west at anytime in their knowledge of the nature of the atom and fission and certainly threats of atomic destruction upon the other are now neither effective nor are they free from the possibility of dangerous consequences.

L. W. Newcombe,
Stony Plain, Alta.

EARLY PIONEER

I want to write and tell you how much I like your paper "The Smoky River News. I am a pioneer of the White Mud Creek part of the district. In 20 years I have seen continued advancement in this area, and the introduction of your paper is another progressive step. You are to be commended on your article of Oil Boom towns. Though living away from the district now, I expect to return soon and meanwhile find the weekly issue of your paper very interesting.

MRS. A. C. HOMAN,
2014-5th St. N.W., Calgary.

PLEA FOR DISABLED

Why do Municipal Councilors appoint big strong men to jobs such as weed inspectors and road bosses? What's wrong with giving disabled veterans, who can't do manual work, these jobs, if they're otherwise qualified?

MRS. B. Gann, Alberta.

\$1 for BRIGHT SAYINGS

The Editor will pay \$1.00 for each child's saying printed. To qualify, Mem must be true, personal remarks of a child known to the writer. Address: "Bright Sayings, P.O. Box 4430, South Edmonton.

Mother and I were discussing a grass widow. My young brother, aged 4, suddenly announced, "I know what a grass widow is—it's a grasshopper without any daddy and with lots of children".

E. BALLARD.

Atmore, Alberta.

My small granddaughter was riding her horse to school. She met some of the other pupils returning and they told her teacher was sick, and she had better go home as there was no school that day. Instead of turning around immediately she went on to the corner quite a distance before turning home. Asked why she did that, she promptly replied, "Well, I had to go to the corner to turn around, didn't I?"

Letter to Louisa

17-Year-Old Girl Marries Alcoholic; Seeks Separation To Save Children

Dear Louisa:

I am a 17-year-old mother. I have a baby daughter and am expecting another child. I was madly in love with my husband before our marriage, although I knew he was a drunkard, I thought I could change him. My parents consented to my marriage only because I insisted and because I was pregnant three months by my lover. I put up with the scant income reduced by alcohol but now that my baby daughter has developed a desire for beer, it is injuring her health too. I am desperate and want a legal separation from my husband which will enable me to raise my children without booze.

Is there any way I can get a legal separation from my husband and raise our children without alcohol? This just can't go on. To see my children alcoholics before they are adults will give me mental torture. Please advise.

Desperate.

Answer:

I have purposely printed this letter as a warning to young girls seeking marriage. I fell I can tell you "I told you so" because in nearly every column I warn against getting married too young and thinking you can reform a man by marrying him.

There is only one help for Desperate's situation and that is legal separation. Only if she is given the right to take her children to new surroundings, new atmosphere and new life, where she can bring up her family without the evil influences of her booze-hound husband can she get peace in her heart.

So, Desperate, I suggest you consult a reputable lawyer and take the steps necessary to safeguard your children's futures.

LOUISA

Dear Louisa—I had two boy friends but the one I liked best went into the Army and didn't pay me any thought so I learned to like the other one very much.

He asked me to marry him and while I was thinking about this, the other boy started writing to me and telling me how much he loved me.

What must I do? I don't know whether I can depend on the one

in the Army even though I think I love him best.

UNDECIDED GIRL.

Answer—Do not marry either one until you definitely make up your mind. The one you like best may not be serious at all and I should certainly hate to depend on him, if I were you.

On the other hand, it is a great mistake to marry any one if you are not sure he is the one you love. You would be doing him a great wrong, as well as storing up trouble for yourself.

LOUISA.

Urges Social Credit Economy...

(Continued from Page 1)

sumers gain nothing. Now, that's no encouragement to farming.

In this land of abundance, which should be a blessing to humanity, there is something economically wrong when people in some lands have to starve while our food stuff is piling up under subsidization. Huge surplus stocks jeopardize farm prosperity and endanger the free market system.

Since 1948 price supports costs the taxpayer over \$42,000,000, and is continually increasing. It was revealed last fall that Canada sold 22,000,000 lbs. of canned pork to West Germany for about 17c a pound, which was sold on the domestic market for about 32c a pound, which cost the government about 60c a pound. Something is wrong—when farmer income has continually been receding since U.N.R.R.A. and the Marshal Aid to needy countries has ceased, and the Bretton Woods' Agreement restricts the Sterling countries to deal with Dollar Countries. How absurd!

So, instead of having foreign countries buy our abundance, we sit holding the bag with consumers being denied the benefits of abundance and farmers denied a stable income.

This sets up a chain of reactions, and one of them is: "The Producers asking for Marketing Legislation." May I say that no government, not even Social Credit could do anything for the producers if finance is going to control our economy.

However, from the letters and questionnaires received from Farm Unions they place as first of importance legislation for producer marketing.

There is much dissatisfaction with the present methods of marketing. They tell me that my company (John Deere), doesn't ship me a carload of tractors, and unloads them on my yard waiting to see what they are offered. That is exactly what the farmers are doing when they ship a carload of cattle to stockyards.

Some solution must be found to the inequities in this whole set up.

If, and I say if the farmers are demanding a marketing act, let's give it to them, and I'm sure they will be very cautious in implementing that legislation. They are asking for it in good faith hoping that their conditions be improved and farming becomes more attractive. However, if they fail in it, it wouldn't be the first catastrophe that the farmer went through. Then there would be no solution to this perpetual teeter-totter economy, but Social Credit Economy.

Harold Winch, C.C.F., M.P., for Vancouver East, said that since 1948, 217 persons died in B.C. from economic murder supported by Liberal-P.C. and Social Credit. It's strange that for 19 years the Honourable member is not aware of Social Credit Economics. He should be sent a book on Social Credit Economics.

It took the banking system 17 years to give bank depositors ½% increase to increase Purchasing Power. There is something basically wrong with the economics followed and while the Bank Act is under revision I trust that men have vision to accept our Basic Monetary Reform and a motion from this House to that effect will be timely.

Although our Monetary Reform Policy has not come through yet we have, however, been able, through efficient administration to give people more and more services that they are asking for.

I recall that yet in 1935 Social Credit candidates said that nobody should be denied the benefits of abundance. Everyone should have services of lights and waterworks in country as well as city; and as we see we have policies which permit rural areas through Self-Liquidating Projects Act, Municipal Bor-

rowings Act, and Rural Electrification Act to have all these:

I am pleased to see that Lac La Biche has taken advantage of this and has water and sewer now, and Rural Electrification has come as far as Beaver River with this assistance. With Lac La Biche as the hub of a large wheel our extension of a network of better roads, for which I wish to thank the Honourable Minister of Highways, I hope to see the power line serve the whole of the rural area. There is a future in the north and I wish to thank the Honourable Minister of Public Works for taking steps ahead to put up a Provincial Building at Lac La Biche for which I have outlined the need of in previous years.

There is yet one urgent request I wish to make to the Minister of Highways. Although I am getting most wonderful co-operation in the building of local roads, there is yet no highway connection between my neighbouring major towns. I would request that a Provincial highway be built between Athabasca and Highway No. 46 to Lac La Biche, which is also requested by colleague, Mr. Aloisio, and from Lac La Biche to Highway 28, St. Paul, as requested by the Honourable Member, Mr. Reiersen. And with the development of the tar sands and settlement of the north a road to McMurray is inevitable.

The honourable member from Peace River was boasting of over 300 miles of Provincial highway north through his constituency. Lac La Biche, which also borders to the N.W.T. some 450 miles has only a local road for about 50 miles north, and that's all.

So I'll ask again, give us that span west and south from Lac La Biche; and for the north centres that are isolated such as McMurray, Waterways, Fort Chipewyan, Fort Fitzgerald, let the government give them local Social Services such as Medical and Hospital Services, Assistance in schools, take care of Child Welfare cases, assist them with their sidewalks since they have no roads, and assist Chipewyan with their delta problem. And too, from Lac La Biche north in all that wilderness where a few of those settlers are found I would request that the Minister of Lands and Forests permit them to clean up the forest of that dry fallen timber (salvaged material) for firewood or whatever they want it for without fees as that material is going to rot there, and is a great fire hazard.

To help open more roads through the bush of the north, I would suggest that the Minister issue free permits on road allowances.

I would request the Minister of Agriculture to survey the conditions as they exist in farming areas in Lac la Biche.

Five years ago I have asked that a survey be made into how we can most economically utilize the grey wooded soils in the north. As a result of the request a District Agriculturist has been placed at Lac la Biche to help the farmers in their farming methods on this

type of soil.

I know that all the efforts have not been exhausted for a 100 per cent utilization of grey wooded soils and that continued experiments should be made. With diversified farming practices carried on in that area and to help the program to be studied further I would request that assistance be given to farmers for water dug-outs for cattle similar to the program in Peace River area.

For a number of years we have been experiencing trouble with water levels of creeks, wells, lakes and many places farmers are complaining that they can't get any water for their stock. We have also experienced difficulty with maintaining the fish in Lac la Biche Lake because of the receding of water level which has its complications and damaging the spawning areas.

To conserve our lands and forests and our fish and water fowl we must stabilize the water level of our lakes and I would strongly emphasize that a dam be built on Lac la Biche River.

With the marketing conditions as they exist at the present time and the announcement that farmers get rid of Garnet wheat which 75 per cent of farmers in my area have, and buy some other approved variety of grain, and in addition to the big tractor overhaul expense will be further hardship upon the farmer this spring.

With recession setting in I would ask the Minister of Agriculture to see if a tractor mechanics' training school could be set up to help the farmer overhaul his own tractor which takes more skill now than it used to because of the highly precisioned machines now.

Now, in the field of education, a building by itself is not a school. Classrooms and textbooks alone do not instruct. The very heart and soul of our educational system is the relationship between the teacher and the child.

The question of getting enough good teachers concerns us all. It is a complex question. The question of getting teachers takes one back to Lac la Biche School Division.

I believe that this is the only one Division that has rated highest in the shortage of teachers which averaged between 15 and 20 every year for the last six years.

Just think how serious the situation is when some of the children have grown through six years of their school age without a teacher. How do we expect to get our own supply if such things exist.

As I have said before that a

building by itself is not a school. We must do something to overcome the teacher shortage. The teacher shortage, like any shortage, can be relieved in just two ways:

1. By increasing the supply and/or
2. By reducing the demand.

Every effort is being put forward to increase the supply of teachers by: 1. Attract new people; 2. Persuade former teachers to return to profession and 3. Hold more of the teachers we have.

I believe that the proposals put forward by the Minister will attract new people, and I don't believe that its intent is whatsoever to lower the standards. The paradoxical effect of some efforts to raise standards has been to frighten away many potential recruits. To attract new people, in the State of Illinois, High School credits are given for the course, "The Introduction to Teaching." This course is divided into three periods: 1st. consists of regular class instruction and discussion on the teaching profession; 2nd, students observe classes in the first eight grades; 3rd, students are given helping-teacher assignments.

From reports students have had that course for three years and have attracted many students to teaching. I believe our curriculum will adopt something like that.

The case of reducing the demand for teachers is more complex. You would have to change the pupil-teacher ratio or by modifying the education program. Some aspects of this could be that of: "The Year Round School." Today when school plants represent multi-million dollar investments, there is tremendous waste in letting them stand idle for a quarter of a year. The "year round" program where one class comes out, another goes in, will allow greater utilization of plant facilities and teachers and at the same time double the teachers' salaries. These are suggestions worth while considering and we shall debate this further.

Triple Surprise Party Honors Three People

AVENIR — A triple surprise party was held at the teacherage on Sunday night. The occasion was the birthdays of Mr. Bert Plamondon, Mrs. Irene St. Jean and Mrs. Pauline Johnson. None of the parties concerned knew what was coming up. The party was planned by the school pupils, and a fine bit of planning it was. Miss Ruth Johnson and Mr. Romeo Plamondon had issued the invitations and did all the work. Three lovely cakes, complete with candles, formed the centrepiece on the lunch table.

The 22 guests included: Mr. and Mrs. Aurel Plamondon, Mr. and Mrs. Bert Plamondon, Mr. Romeo Plamondon, Albertine Archie and Lea. Mrs. Irene St. Jean, Diane Denis and Gerald, Mr. Lawrence Plamondon, Mr. Wilbert Plamondon, Mr. Jean-Paul Plamondon, Mr. Albert Chevigny, Miss Diane Mischuk, Miss Therese Gauthier, Miss Ruth Johnson, Mrs. Pauline Johnson, Thelma and Shelley.

The wonderful musical evening was thoroughly enjoyed by all. Songs and selections played on piano, violin, guitar and accordion, made a real hit.

Avenir

AVENIR — Due to the temporary absence of the regular reporter, Miss Christine Johnson, a new "Scoop" will attempt to do Avenir justice this week. Miss Johnson was called to High River due to the illness of her sister, Mrs. Harold Borgen. Friends will be glad when she returns home.

Visitors to Avenir during the week-end included Mr. and Mrs. Sullivan Plamondon of Edmonton and their family.

Mr. Paul Harris of Clyde is a welcome visitor at the River. When he made a business trip to Lac la Biche last Saturday he was accompanied by Mr. Leonard Gravelle and Mrs. John Johnson. On their way home they enjoyed a short visit at the Hogan homes at the mission.

Mr. Albin Gauthier reports catching a wolverine on his trap line recently. Rather an oddity for this part of the country.

The supervisor of Roselda.

NOTICE TO LAKE PROPERTY OWNERS

A proposal has been made by residents of Lac la Biche that a dam be built in the outlet to the lake. It is considered that if the oxygen content of the lake can be improved by increasing the water volume of the lake there should be an increase in the fish population.

The proposal is that the lake level will be stabilized approximately two feet higher than the present level. Due to unforeseen circumstances there can be some fluctuation higher or lower than the optimum level.

Any lake property owners who feel that their interests will be adversely affected by this proposal should write to:

Ben Russell, Director,
Water Resources Office,
Terrace Building, EDMONTON.

BEN RUSSELL,
Director of Water Resources.

GEORGE W. FRANCHUK

Phone 116 Lac la Biche
Lac la Biche, Wandering River

School reports a few "H" gradings on the students' lessons.

Mr. Leonard Gravelle has a different truck these days — a Ford half-ton.

Frains

Mr. and Mrs. Shearing from Lamont and Mr. and Mrs. Willie Shwetz from Edmonton were visiting with the Shwetz's family during the week-end.

Visitors to the city during the past week were Mrs. Emily Sawchuk, Mrs. Kolach, Mr. Pete Letwin, Boris Hussynec and Mr. Harry Budney.

Spring 'flu has most of the school children in bed.

Mr. Walter Nahorney and Albert motored to the city and brought a piano home.

Mr. Dan Shwetz, Archie and Eddie motored to the city. Eddie got himself a new accordion. This means better music for Krains Orchestra.

Helina

Suhans have purchased a new one-ton truck.

The members of the Farmers' Union held their monthly meeting of the FUA at the old school on March 27.

The district people wish to extend their deepest sympathy to Mrs. M. Kumpula and family of Rich Lake on the death of M. Kumpula.

Visitors at the home of Mr. and Mrs. Wilmer Elliott recently were: Mr. and Mrs. Art Schirmacher of Big Bay and Ronald McDonald of Boscombe.

Bert Emery from Therien was up in the district selling his products. Bernie Martin of Sugden accompanied him.

Caslan

The film, "Narrow Margin," was shown at the Caslan School last Monday evening.

Mr. Pat Gordon and Miss Irazel Saarela were visitors in Lac la Biche recently.

Mr. Walter Meyer was in Lac la Biche for medical attention.

Mr. M. Kowalchuk and some of the school children have been canvassing the community for donations to raise funds for a tennis court to be built on the school grounds.

Mrs. E. W. Meyer and daughter, Edna, are spending a week in Edmonton.

Mr. and Mrs. Jack Bury and their youngest son, Willard, left by truck for British Columbia where they plan on making their home. Mr. and Mrs. Bury have farmed in the district for over 20 years. About 10 years ago they were noted for their poultry flock and they shipped a good many crates of eggs from the district. The last few years they raised a herd of dairy cattle and were noted for the number of cans of cream they shipped to the Lac la Biche Creamery. They disposed of their stock and farm machinery privately and at public auction. They planned on visiting other members of their family in Edmonton for

a few days. Their next main stop will be at Enderby, B.C., where they will visit Mr. Bury's brother for about a month.

Mr. Prymych of Thorhild has purchased the Bury farm. Mr. G. Waselenchuk was a recent visitor to Edmonton.

Mrs. Neil Hughes and daughter, Keltie of Edmonton, visited the former's parents, Mr. and Mrs. A.

Mateshuk. Mrs. Hughes plans on taking her son, Skyler, who has been staying with his grandparents, back home.

Mr. Mervin Henson went to Edmonton where he plans to be employed.

Thirty ships—a seasonal record—visited Churchill, Man., for grain cargoes in 1953.

Thank You!

Having sold my business at Atmore to ROLAND VINCENT of Normandeau, I now want to thank all my customers and loyal friends for their patronage and support while I owned the store at Atmore.

For my successor, I ask that you give him the same support and wish him the very best success.

LIVEWEIGHT TRACTION

gives farming a real boost!

When your field work calls for more real pull, live-weight traction will see you through.

The hydraulic TRACTION BOOSTER in the CA and WD Tractors changes deadweight to liveweight. Weight of both tractor and implement is automatically shifted to bear down on drive wheels when soil is stubborn and tillage is tough.

The hydraulic TRACTION BOOSTER reduces wheel slippage — enables the CA and WD to do draw-bar jobs that normally would require heavier tractors. Stop in and let us show you how it works.

Red Cross Campaign To Date

A total of \$207,275.04 has been
reported so far in the 1954 cam-
paign for funds in Alberta Divi-
sion, Canadian Red Cross Society.
Quota for this year's drive is
\$469,620.

Of the amount subscribed so far,
\$94,310.29 is from Calgary and
\$19,844.79 from branches in the
area south of Red Deer. Edmonton
has subscribed \$75,674.00 to date
and northern branches \$11,462.66.
Direct donations total \$5,983.30.

While Red Cross has asked for
\$469,620 from Alberta this year, it
has budgeted to spend nearly
\$600,000 in the province during
1954. The Blood Transfusion Ser-
vice, Arts and Crafts and a film
service in DVA hospitals are all
under the National office.

Alberta Division programs in-
clude the Alberta Red Cross Crip-
pled Children's hospital, Junior
Red Cross, Disaster and Welfare
Services, Swimming and Water
Safety and the other regular Red
Cross services.

1 for Favorite RECIPE

EASTER BUNNIES

Roll dough $\frac{1}{4}$ " thick cut in strips
1x6". Tie in knot and place on
baking pan, bring ends up straight
to form ears. Press raisin in for
eyes, brush with butter, cover and
let rise for half an hour. Bake at
450 degrees for 10 to 15 minutes.
When cool, frost with white icing
and pink ears. Good luck.

Mrs. Andre Coulombe.
Falher, Alta.

SPICE SPONGE CAKE

For a Spice Sponge Cake when
you bake an Angel Food Cake and
have the left-over yolks.

14 egg yolks
1 cup sifted granulated sugar
 $\frac{1}{2}$ tsp. cloves
1 tsp. cinnamon
 $\frac{1}{2}$ cup sifted flour
 $\frac{1}{2}$ tsp. salt
2 tsp. baking powder
3 egg whites, beaten stiff
 $\frac{1}{2}$ cup walnuts, chopped fine
1 tsp. almond extract

Beat the yolks with a rotary
beater. Slowly add the sugar and
beat the mixture fifteen minutes.
Sift the flour, salt, baking powder
together and fold into the beaten
yolks. Add nuts, flavoring; fold in
the stiffly beaten egg whites, pour
into angel-food tin and bake in
325 degrees Fahrenheit oven about
55 minutes. Sprinkle cake with
powdered sugar or frost. Do not
grease tin.

Mrs. James Osinchuk

Atmore

Mr. Ronnie Matheson who is working at Rocky Mountain House spent the week-end with his family at Atmore. Mr. Matheson, the local Red Cross canvasser, reports two-thirds of the district quota has been reached. Kindly leave donations at the Matheson home if you have not already made an offering to this worthy cause.

Mr. E. Bourassa has moved their country home into Atmore. They are at home next door to Mrs. L. Genoud.

Mr. and Mrs. Nick Kostluk and family spent Sunday at Wandering River, visiting the Kostluk family.

Edmonton visitors from Atmore during the past week included: Mr. O. Poulin, Mr. and Mrs. V. F. Genoud, Mr. Gordon Brietzke, Rene Boulanger, and Mr. and Mrs. Wm. Campbell.

Mrs. H. Porodo has been transferred from St. Catherine's hospital, Lac la Biche, to the General hospital, Edmonton. Her condition is reported as satisfactory.

Miss Patsy Ballard is employed at the Vincent store.

The west-end residents have recently been connected to Victor Genoud's new power plant.

The Imperial Oil warehouse, south side, Atmore, has recently been connected to power. It is now officially open for business under the management of Atmore Service Garage.

In spite of the cold weather, the Allis-Chalmers Machinery Show had a good turn-out. Scenic and machinery films were shown by Mr. L. S. Davis, blockman for Allis-Chalmers.

Visions of an early harvest arrived in Atmore last week as four new combines were unloaded at the garage.

Rev. Fr. St. Arnaud is the owner of twin chinchillas born at his ranch. These precious fur-bearing animals have been registered as part of the St. Philip Chinchilla Ranch owned by Fr. St. Arnaud and Mr. Laurence Ulliach.

Mr. T. W. Pue, editor of Lac la Biche Herald was a dinner guest at the V. F. Genoud home last week.

Miss Anne Kostluk of Lac la Biche spent the week-end with her brother and family in Atmore.

All items of news for publication may be left at the Atmore Service Garage. Since your reporter is not too well acquainted with the folk of this community, your assistance will be greatly appreciated.

Value of milk dumped as useless because it couldn't be delivered during a four-day strike of drivers in Toronto was figured at \$320,000.

Former Operator Lac la Biche Power Plant Strikes It Rich In Uranium

More than 20 years in the north country have, apparently, paid off abundantly for Joe Durocher, now of Edmonton, but formerly of McMurray and Lac la Biche.

Joe, along with two partners, Hector Demers, of McMurray, and Bob Haron, Uranium City, Sask., struck pay dirt with a reported promising rich uranium find in the far-flung regions of northwestern Saskatchewan.

The discovery, at Laird Island in the Tazin Lake area, about 500 air miles northeast of Edmonton in the northwestern corner of Saskatchewan near the Northwest Territories border, promises to be an anti-climax to a life-long ambition for Joe Durocher.

Years ago, when he first went north in 1921, he wanted to go prospecting. He dabbled in it in 1925, staking out some claims in the mineral area of Pine Point near Lower Hay River, N.W.T. He later abandoned or sold them, turning to new fields.

URGE TOO MUCH

Since then and up until about four years ago, Joe operated power plants at McMurray and at Lac la Biche. He installed the first power plant at McMurray and operated it for a number of years. He sold his plant holdings when the urge to go prospecting became almost an obsession.

At the age of 49 he learned to pilot an aircraft, later buying one in preparation for his fling at prospecting in an all-out effort.

Durocher, along with Demers who also owns an aircraft, and Haron, tried their luck in the general area of what is now Uranium City, a growing town in a region believed rich in the much sought-after radioactive ore. The area, according to reliable engineers' reports in Edmonton, promises to be as rich or richer in uranium than the Beaverlodge discovery area.

Joe and his partners made their discovery early last fall about 22 miles southwest of Uranium City. They had made extensive reconnaissance Geiger surveys over a wide range. Their preliminary efforts were encouraging and, since the discovery, have had good sample tests of ore found on their claims.

TEST WAS GOOD

One such certified test showed 4.14 uranium stain—an exceptionally good result, according to mining officials.

The partners, who staked out 16 claims, have had several lucrative offers for their property, but they haven't sold. "We are too confident that it is a good strike to sell out," Joe stated in an interview. "I have dreamed and thought of prospecting and making a strike for so

long that to prove up our discovery would certainly climax my wildest dreams," he said.

"Last spring when we started out I felt in my bones that we would make a strike," Joe stated. "I think we have a good one. We hope to further prove our beliefs when we start trenching and developing the property this spring," he added.

Joe and his partners have formed a company named the Durocher Uranium Company Ltd. Now that they have their preliminary plans fairly well completed they are anxious to get started on more Geiger survey, and hope to have some drilling under way sometime in June.

Water Causes Fire

PITTSBURGH, Pa. — When a member of Mike Cafaro's family watered a plant on a windowsill, water dribbled down the wall and caused a short circuit in an electrical socket. A fire broke out. On the way to the fire, a fire truck smashed into a parked car, damaging the auto much more than that caused by fire in Cafaro's home.

Speaking of Love Messages

It seems that an Indian in New Mexico was smoke-signalling love messages to his Injun Sweetie Pie a few miles away. Right in the middle of it, the atom bomb test went off, covering the sky with smoke for miles.

"Gosh," cried the Indian enviously, "I wish I'd said that!"

Plan To Go Ahead With Curling Rink

BOYLE—At a recent meeting of the Boyle and District Board of Trade, plans were reviewed for commencing on the Curling Rink Project early this spring.

A committee consisting of John McNamara, B. Delevee, A. Kowalchuk and P. Andruski were selected to go ahead with the ground work of raising the necessary funds, which will have to be available within the next month.

It has not been definitely decided whether a two or three sheet rink will be built, but the majority of those present, were quite in favor of trying to raise enough money to provide a building for three sheets. The project will run under the name of The Boyle and District Board of Trade Curling Association, and as soon as all arrangements are complete a sales committee will be approaching

everyone in the district with shareholders certificates of a \$10.00 denomination.

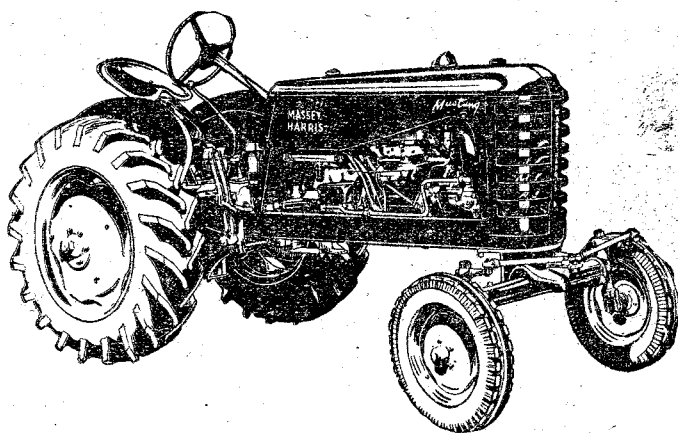

It is only through the co-operation of district farmers that such a project may be successful, and it is hoped that everyone that is approached will not turn the canvassers down. All labor on this project will be donated, except for the overseeing of the work, which may have to be hired for a short while.

Bakay Team Defeats Peltier In W.I. Bowling Finals

LAC LA BICHE—The team captained by Miss Olga Bakay won the W.I. bowling championship when they defeated the team captained by Rita Peltier. Bakay's team took the series two games to one. Miss Peltier's team lost the final game by a scant two points. The game was featured by some fine bowling in the last frame by the Peltier team. Down by almost 100 points the team fought to within two points of winning the game and almost succeeded only to have Mrs. I. Settles fail to count in the last ball.

The individual star of the series was Mrs. M. Patterson who consistently ran her score into the two-hundreds.

The winning team were Miss O. Bakay, Mrs. M. Patterson, Mrs. E. Martin, and Miss R. Paskar. The members of the other team were Miss R. Peltier, Mrs. H. McCormick, Mrs. O. Stuparyk and Mrs. I. Settles.

Gourin

Some time ago Mr. Jean Ulliac lost a nice purebred cow. She had swallowed a 5½" piece of wire.

On March 18 a surprise birthday party was held for Mrs. Oscar Apalsta, who celebrated her 63rd birthday. Mr. and Mrs. Maurice Kiss, Mrs. David Bourassa and Mrs. Jean Ulliac were present in the afternoon. At night Mr. Daniel Bourassa and children, and Mr. Daniel Ulliac joined them.

Mr. Alphonse Bourassa and his little brother Lionel are back from hospital. Alphonse suffered a broken arm and Lionel had a minor operation.

On March 19 Mr. and Mrs. Alve Gauthier and family, Mr. and Mrs. Jean Ulliac, Edmond and Daniel went to Mr. Clifford Gauthier's 50th birthday. At the same time they celebrated Mrs. Evangeliste St. Jean's 67th birthday, Clifford St. Jean's 12nd birthday and Larry St. Jean's 1st birthday. Larry is Clifford Gauthier's grandson.

Sixty persons were present and a delicious lunch was served. They received many lovely gifts. A very nice letter was composed and read by Theresa Gauthier.

Mr. and Mrs. Eugene Routhier have moved back to their farm.

On Saturday, March 20 a farewell party was given in honor of Mr. and Mrs. Carl Bauer and children who are moving away. Mrs. Bauer was presented with an electric iron and Mr. Bauer with a brief case. Their many friends wish them good luck.

The people of Atmore extend a sincere welcome to Mr. and Mrs. Roland Vincent who are the new owners of Atmore General Store.

Mr. Philias Boulanger is back home, recovering from an operation. His friends wish him a speedy recovery.

Mrs. Pierre Boulanger has re-

turned from a month's stay in the General hospital. Her many friends wish her a speedy recovery.

Father St. Arnaud has started a Catholic Action group for married people.

Little Roger Duigan had the misfortune of having his head cut on the cellar steps. He had five stitches put in.

Hylo

Mrs. L. N. Sawchuk is in the St. Catherine's Hospital.

Edwin Straticuk of Hylo broke his ankle while playing football. He was taken to the St. Catherine's Hospital in Lac la Biche.

Mr. Terrance Pokranychny of Hylo returned home after spending the summer and winter with a seismographing crew in Northern Alberta.

Mr. S. Pohranychny of Hylo purchased a 1947 car.

Mr. Fred Marchaesi of Hylo purchased a new 1954 tractor.

Kikino

Mr. Elmer Calliou of Grande Centre, Alta., is up here in Kikino spending a few weeks visiting relatives and old friends as he is unable to work yet since he got hurt.

Mr. Rhaul Lavallee of Brosseau, Alta., was up here the other night on business.

Mrs. T. M. Johnston, the school teacher, had to close the school down a week ago as she was ill.

Mr. and Mrs. James Cardinal spent a week with a relative up at the other colony.

Mr. and Mrs. Thomas Jackson and family of Goodfish Lake were up here visiting their daughter and friends last week.

When you give to your Red Cross you are there to help provide comfort and hope for veterans in hospitals from coast to coast. Your Red Cross needs \$5,422,850 in 1954.

Poor Seed Planting Alarms Grain Officials

OTTAWA (BUP) — Federal grain officials say they are "disturbed" to learn that perhaps half of western Canada's 250,000 farmers will be planting poor quality seed this year.

The agricultural officials say that a seed drill survey made in Saskatchewan has disclosed that about 43 farmers out of 100 are planting wheat seed that would be rejected if offered for sale. The percentage is greater for farmers growing coarse grains—76 out of every 100 farmers sowed seed that was classed as rejected, and 67 out of 100 sowed sub-standard barley seed.

The officials say that although the survey was made only in Saskatchewan, they believe the same situation exists in Alberta and Manitoba.

Imperial Oil Plans Expansion

CALGARY (BUP)—The existing facilities for moving Canadian crude oil could be expanded in two or three years to handle nearly three-quarter of a million barrels daily, John R. White, president of Imperial Oil Co. said here Saturday.

White told the Association of Professional Engineers of Alberta that the expansion of facilities will be necessary to handle the large additional crude production which will result from discoveries at Pembina, Smiley and other points.

"While we may be in for a year or two when potential production could be substantially greater than the capacity for moving it," White pointed out, "there is every reason to anticipate an early solution."

Farmers' Union Executive Asks Enquiry Into Gasoline Prices

EDMONTON (BUP)—A two-day executive meeting of the Farmers' Union of Alberta in Edmonton last week discussed the need for a full inquiry into the controversy over gasoline prices.

President Henry Young of Millet said the executive felt the inquiry should be held "in the light of a statement by the Oil Agents' Association."

The meeting also heard reports from delegate to Ottawa. A decision on the construction of an association headquarters was deferred until July as funds were considered insufficient.

The next annual meeting will be in Edmonton at the Alberta College auditorium, December 6 to 10. Young was chosen FUA

delegate to the newly-formed Farmer-Labor Economic Council. The group will meet in Winnipeg on April 28.

Manitoba ranks fourth amongst Canadian manufacturing provinces. Ahead are Ontario, Quebec and British Columbia in that order.
